IN COOPERATION WITH

**U.S. DEPARTMENT OF TRANSPORTATION
FEDERAL HIGHWAY ADMINISTRATION**

INTRODUCTION

This book contains traffic statistics collected by the Transportation Monitoring Unit and developed and analyzed by the Traffic Analysis Section of the Program Development Division of the Utah Department of Transportation. These statistics are intended for use by transportation management, business, and the public. The traffic information is used in planning, programming, highway design, maintenance, traffic control and general administration of highway systems.

The traffic information contained in this book is Annual Average Daily Traffic (AADT) on road sections of the State Highways and the corresponding percentage of Truck Traffic on each section. These statistics are developed by the Traffic Analysis Section through the use of the following counting stations:

1. 103 continuously operated permanent automatic traffic recording stations (ATRs) provided by the Utah Department of Transportation;
2. 3 continuously operated permanent automatic recording provided by the United States Department of the Interior, National Park Service;
3. 4 continuously operated permanent automatic recording stations provided by Colorado, Idaho and Wyoming Departments of Transportation;
4. 5,284 (approximately) short-time counts provided by the Utah Department of Transportation;
5. Over 700 Classification counts for 2013 provided by the Utah Department of Transportation;

The AADT represents traffic in both directions of travel and is the average for that particular section of route. The routes are sectioned according to:

- a. Major intersections
- b. Sections where traffic volumes show a substantial increase or decrease.

The Truck Percentages Single and Combo are represented by the FHWA Vehicle Classifications below Single Commercial Vehicles are Classification 4 through 7 and Combo is represented by Classification 8 through 13.

FHWA Axle Classification Scheme

Class 1 Motorcycles		Class 7 Four or more axle, single unit	  
Class 2 Passenger cars	   	Class 8 Four or less axle, single trailer	   
Class 3 Four tire, single unit	  	Class 9 5-Axle tractor semitrailer	 
Class 4 Buses	  	Class 10 Six or more axle, single trailer	
Class 5 Two axle, six tire, single unit	  	Class 11 Five or less axle, multi-trailer	 
Class 6 Three axle, single unit	  	Class 12 Six axle, multi-trailer	 
		Class 13 Seven or more axle, multi-trailer
